MediLUX LED Light Therapy offers Red, Blue, Yellow, Green and Near-Infrared wavelengths to treat every client's skin concerns. Part of the 'LUX Series' range, it boasts the highest power output per wavelength available on the market. The Global Beauty Group 1300 006 607

Rezenerate NanoInfusion Device uses a three-phase process consisting of vibratory facial massage, product infusion and accelerated exfoliation to deliver a non-invasive treatment with excellent results. In 2 Skin Australia 1300 660 297.

Z Wave Pro uses radial pulse technology to deliver acoustic shockwaves. Can be used as a standalone for the treatment of cellulite and stretch marks or in combination with non-invasive body contouring treatments such as laser lipolysis, cryolipolysis, RF or ultrasound. Cynosure Australia 02 9484 4546

Wishpro Lift is new to Australia and used to achieve a non-surgical face lift. It incorporates Magnetic Infusion Technology (MIT), different technology heads and serum infused treatment capsules to penetrate active serums into the skin for a toning, tightening effect. Zhav International 08 8362 0222

Jett Plasma Lift Medical is a lifting and tightening device for the eyes and face. It uses the power of plasma to tighten skin and stimulate collagen and is a non-surgical alternative to blepharoplasty (eyelid surgery). Cryomed Aesthetics 1300 346 448
